

# **FISCAL NOTE**

## **SB 2456 - HB 3254**

March 9, 2000

**SUMMARY OF BILL:** Authorizes counties to include in the determination of the fee amount for providing access to remote electronic information services consideration of the costs for design, development and implementation of the online access capability; the cost of electronic media storage systems, including maintenance costs; and, after system implementation, requests for specialized reports or accesses. Current law specifies that counties can charge an amount sufficient to cover the costs of actually providing the services and no more.

### **ESTIMATED FISCAL IMPACT:**

#### **Increase Local Govt. Revenues - Less than \$100,000/Permissive**

Assumes to the extent counties currently providing this service and those planning to provide this service in the near future choose to charge more than previously allowed, an increase in revenues estimated to be less than \$100,000 statewide will occur.

*For informational purposes, the few counties currently providing this service do not charge state and local governmental entities needing access to the information for the service.*

### **CERTIFICATION:**

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

James A. Davenport, Executive Director
